Middleware Magic

What does Middleware Magic provides you?

1. It's a Platform to showcase your skills to the World.
2. Provides an opportunity to interact with worldwide Admins/Debuggers/Beginners/Developers using comments and Magic Forums.
3. Get to learn different issues and to keep yourself in touch with the middleware world with different application servers that too at one place.
4. To be frank while working in a 24x7 production environment we do not get an opportunity to step into these many issues and we block our knowledge and troubleshooting skills.
5. So why stop the learning join us and keep growing your knowledge.

Why should I join Middleware Magic community?

1. Middleware Magic is not just like any other websites, rather it is a community and a platform.
2. In coming future it will have almost all the great application servers used all over the globe.
3. This will also give us a chance to interact with worldwide admins, debuggers and developers who would comes to share their experiences, knowledge and their issues with us.
4. Also as middleware is a giant in its childhood and growing much faster, you can get yourself recognized all over the middleware technology world by being a part of Middleware Magic community.

If you are willing to become a part of a huge and upcoming magic community we would require the following things from you

1. One photograph of yours which will be displayed along with your Posts.
2. Email address of yours (Personal and Company e-mail address if any)
   Note: Your company e-mail address will not be used for any further communication.
3. Your contact number (Will not be displayed to subscribers)
4. Few lines about your middleware expertise which may be displayed along with your post (if you wish)
5. The signed (scanned) copy of the PDF document as your approval of displaying your details on Middleware Magic (www.middlewaremagic.com)

Hi,

   I _____ understand and agree the below terms and conditions and accept it.
